The three classes and the requirements which apply to them are:Any preparation designed for administration by injection which includes a substance or product for the time being specified in any of paragraphs 1 to 3 of Part II of this Schedule.. As is the case with Class I recalls, the FDA will take an oversight role to ensure its adequacy.. Conversely, not all PPAR agonists are fibrates, not all triglyceride lowering agents are PPAR agonists, and not all drugs used to treat atherosclerosis are triglyceride-lowering agents.. Class II Recalls If the FDA expects a product's defect to only result in a short-term health issue, or if there is only a slight chance it could lead to a serious problem, the FDA will designate the recall as Class II.. Oct 30, 2014 Benzodiazepines are rarely the sole drug of abuse, and abusers usually combine benzodiazepines with other drugs to increase the effect. [Citroen Xantia Service Manual Free Download](#)
